Product Description

Connect Me is a universal ISOFIX connection aid for all car seats and baby carriers with ISOFIX connections. Thanks to the connection aid Connect Me, all car seats are installed correctly and fastly. Both parts are simply placed in between your car's seat and backrest, so as to frame the car's Isofix connectors. This way, your child's car seat can be removed without leaving any traces or damages. The connection aid can be left in their position even when removing the car seat. Every package contains 2 x Connect Me.
